

Travelers has over 150 years of experience insuring the unique risks of specialized businesses and we have been servicing Oil and Gas clients for over two decades. We understand what happens at a well site and our products have been designed to respond to the most recent trends in the oil and gas industry.

WE UNDERWRITE ONSHORE OIL AND GAS CLIENTS WHICH INCLUDE:

- Operators and non-operators
- Drilling contractors
- Equipment rental firms
- Oil Field technicians
- Well service and work-over contractors
- Manufacturing and wholesale firms for oil and gas products

OUR OIL AND GAS PRODUCTS INCLUDE:

- Travelers EnergyPro™ commercial general liability coverage, including coverage for pollution clean-up costs and evacuation expenses from sudden and accidental pollution incidents, and forest or prairie fire fighting expenses liability
- Travelers EnergyPro™ umbrella for increased policy limits
- Automobile liability coverage for autos used on a day-to-day basis in an oil and gas operation
- Inland marine and property coverage to cover costs or losses related to contractors equipment, or lease properties

Travelers EnergyPro™ is designed to address the distinct general liability needs of our oil and gas customers, and includes valuable coverage features, such as contractual indemnity and additional insured protection (by endorsement) for covered damages.

Contractual indemnity coverage contemplates the types of contracts used in the oil and gas industry, as well as exposures arising out of joint operating agreements. One available additional insured endorsement offers a blanket approach for adding additional insureds to our policy, providing coverage designed to meet the contractual requirements of your operating partners. Our pollution coverage is an occurrence wording and we cover evacuation costs to the full limit of the policy. In addition, with our Travelers EnergyPro™ umbrella, we have the flexibility to customize the policy limits to ensure sufficient amounts of protection are in place.

ABOUT OUR COMPANY

Travelers offers an integrated approach to serving our oil and gas customers. Our Underwriting, Risk Control and Claim Services work closely together to ensure the most efficient and effective solutions to promote the longevity of your business.

- Underwriting — our underwriters understand the evolving and complex issues of your oil and gas operation. These experienced professionals will customize the most effective plan for your business
- Risk Control Services - Travelers was the first in the market to develop a team of risk control professionals dedicated exclusively to the oil and gas industry. Our experts will assess, address and seek to reduce the risks that affect your business
- Claim Services - Our claim specialists know the types of losses that can occur at a well site and they have the expertise to manage losses related to well sites, contractual indemnity, specialized equipment, and more. These claim professionals are able to deliver prompt, knowledgeable service to help reduce the time and costs involved in resolving complicated claims
- Travelers is an industry leader in specialty insurance, serving construction companies, local governments, manufacturers, technology companies and more
