

Home Warranty Coverage for new home buyers

TRAVELERS CANADA | B.C. NEW HOME WARRANTY

Protecting your investment in a new home

Congratulations on your decision to purchase a new house, townhome or condominium. A new home is likely the largest investment of your lifetime. Therefore, we encourage you to carefully research all aspects and to seek professional advice when required. In order to receive the benefits of home warranty coverage from Travelers Canada, consumers must purchase a new home built and sold by one of our approved builders. Prior to signing a Contract of Purchase and Sale, it is also prudent to contact Travelers Canada to verify that the builder is officially registered and that home warranty coverage has been issued on your prospective new home.

Homeowner Protection Act – Strong protection for new home buyers

The *Homeowner Protection Act and Regulations* (the “Act”) became effective July 1, 1999. Prior to issuing a building permit, the Act requires all residential builders to be licensed by BC Housing – Licensing and Consumer Services and to provide the 2-5-10 Year Home Warranty from an approved warranty provider. For further information, please contact BC Housing at: 604.646.7050 or 1.800.407.7757 or visit their website at: www.bchousing.org/licensing-consumer-services

What is 2-5-10 Year Home Warranty?

Home Warranty is a consumer protection product that is backed by an approved insurance company. The Act outlines specific details about the mandatory home warranty coverage commonly referred to as a 2-5-10 Year Home Warranty.

Coverage limits

The Act requires builders to provide a home warranty backed by a licensed insurer covering:

- **2 Year Materials and Labour Warranty**

- **First 12 months** – coverage for any defect in materials and labour
- **First 15 months** – coverage for any defects in materials and labour in the common property of a multi-unit building;
- **First 24 months** – coverage includes:
 - defects in materials, labour and design supplied for the electrical, plumbing, heating, ventilation and air conditioning delivery and distribution systems.
 - defects in materials, labour and design supplied for the exterior cladding, caulking, windows and doors that may lead to detachment or material damage to the new home;

- **5-Year Building Envelope Warranty**

- **10-Year Structural Defects Warranty**

Stringent underwriting

Travelers Canada thoroughly reviews all builder applicants, focusing on track record, technical expertise, financial capacity and after-sales customer service. Not every applicant qualifies. Only those builders who meet our stringent underwriting criteria, construct quality homes, and carry out timely after-sales service, are able to offer Travelers Canada Home Warranty Coverage. All new construction is subject to a technical review by Travelers Canada staff or outside consultants, and there is a thorough annual review of builder performance issues as a condition of the builder maintaining his or her registration. BC Housing also regulates builders throughout the province and investigates consumer complaints.

Home warranty documentation

Our approved builders are responsible for having their new home buyers sign and date a Warranty Commencement Date Certificate at the time of either the title transfer or the actual occupancy of the home (whichever is earlier). Upon receipt of this completed certificate from the builder, Travelers Canada issues the owner a 2-5-10 Year Home Warranty Certificate. It explains home warranty coverage and the process for reporting defects in your home or the common elements of your condominium. If you have questions or require clarification, please contact Travelers Canada.
