

## Travelers Canada's *eRisk Hub*<sup>®</sup>

---

### A SPECIALIZED WEB PORTAL TO HELP YOU PREVENT AND RESPOND TO CYBER EVENTS

---

It takes only one cyber attack or data security breach to impair your company's financial results, or even potentially put you out of business. Just one stolen laptop, one resourceful hacker, one virus or even lost paper records can cause data breaches and impact the privacy of the data your organization stores. Finding and remedying a breach can be complex and expensive.

Travelers Canada's cyber coverage solutions are specifically designed to help in the event of a cyber breach. We provide options that include coverage for forensic investigations and litigation expenses associated with the breach. Some of our coverage solutions also offer options for regulatory defense expenses and related fines, crisis management or public relations expenses, business interruption and cyber extortion.

In addition, our coverage includes access to Travelers Canada's *eRisk Hub*<sup>®</sup>, a risk management web portal to help your organization successfully prevent and respond to cyber events.

#### **Prevention benefits:**

- News center with the latest cyber-related headlines
- Tools to build privacy controls as well as information and IT security programs
- Learning center featuring white papers, articles and upcoming webinars on a variety of topics including business interruption, forensics, compliance and security awareness
- Calculators to estimate potential costs of an event
- Resources for statutory, regulatory and case law updates regarding privacy liability and notification obligations
- Access to experts who can help your organization build or improve its cyber programs

#### **Post-event response benefits:**

- Breach coach service – a free 1 hour consultation with a lawyer to receive immediate triage assistance
- Sample incident roadmap for dealing with a privacy breach
- Easy access to the Travelers Canada's claim reporting website

Travelers Canada's *eRisk Hub*<sup>®</sup> is available at no additional cost to insureds of CyberRisk and Cyber+<sup>®</sup> for technology companies and public entities.
