To Our Personal Auto Insurance Customers:

We know that many of you are continuing to do your part to help stop the spread of COVID-19 by staying at home. Even as more provinces begin to relax restrictions, many of you are still driving less.

With that in mind, Travelers Canada is extending their Stay-at-Home Auto Premium Credit Program to provide you with a 15% credit on one month's premium. This follows the 25% credit they announced in April.

The credit will be applied automatically – you don't need to do anything. If you pay by monthly installments, you will receive the credit on a future bill. If you have already paid in full, you will receive a payment via mailed cheque.

If you have questions about your current payment plan, please contact us, your broker, directly. Answers to questions that you may have about this program can be found here.

The extension is another example of the continued efforts made by Travelers Canada to provide relief during this challenging time.

We and Travelers Canada appreciate your business, and hope you stay healthy and safe.
