Protect your bottom line

Cyber+™ Errors and Omissions Liability coverage is enterprise-wide and specifically tailored for high-tech companies. It protects your bottom line against damages due to economic loss arising out of your products or work caused by an error, omission or negligent act.

Solve your privacy concerns

Cyber+™ Network and Information Security Liability coverage protects you against claims for loss caused by the failure to prevent unauthorized access to, or use of, data containing the private information of others. It also protects against claims for losses caused by the failure to prevent the transmission of a computer virus and the failure to provide access to authorized users of a website or communications network.

Safeguard against copyright infringement and more...

Cyber+™ Communications and Media Liability coverage protects you with respect to claims or suits made against you alleging infringement of copyright, title, slogan, trademark, trade dress, service mark or service name in the policyholder's covered material. It also provides coverage against the unauthorized use of any advertising material, or any slogan or title, of others in the advertising of the business, premises, products, services, work or completed work of others. In addition, it protects you with respect to claims or suits made against you alleging plagiarism or unauthorized use of a literary or artistic format, character or performance in the policyholder's covered material.
